

Head Judge Responsibilities

Thank you for volunteering to be a Head Judge for the Roche Colorado Boulder Valley School District Regional Science Fair. You have three responsibilities that are outlined below. Please let us know if there are any concerns or questions.

1. At the end of each session, there is time where judges will meet to decide the 1st, 2nd, and 3rd place projects within each category. Your job is to facilitate this conversation, and communicate the place winners to Jennifer Barr or Julie Andrew.
2. All of the head judges will confer to decide which students will advance to the Colorado State Science and Engineering Fair. Typically we are allowed to send 20 projects to the state fair.
3. All of the head judges will confer to decide the overall fair awards.
 - For the Senior Division (morning) 1st and 2nd place individual awards, 1st place team award (selection for ISEF) and other special awards will need to be determined
 - For the Junior Division (afternoon) 1st place award (selection for ISEF non-competitive delegate), and other special awards will need to be determined
